# Aditya Singh

## FULL STACK DEVELOPER | B.TECH COMPUTER SCIENCE ENGINEERING

Bhopal, Madhya Pradesh, India | +91 62616 02969 | adityasinghrajput2038@gmail.com | github.com/Aditya-singh-31

## PROFESSIONAL SUMMARY

Computer Science Engineering student and aspiring Full Stack Developer with hands-on experience building and deploying web applications using React.js, TypeScript, Node.js, FastAPI, Flask and PostgreSQL. Experienced in creating responsive interfaces, REST APIs and an AI image-classification app with TensorFlow and Keras. Seeking an internship or entry-level role to build practical, user-focused software.

## EDUCATION

**Bachelor of Technology, Computer Science Engineering**
Sagar Institute of Research and Technology (SIRT), Bhopal | Expected graduation: 2027

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, JavaScript, React.js, TypeScript, Tailwind CSS
**Backend:** Node.js, Express.js, Python, FastAPI, Flask, REST APIs
**Databases:** MongoDB, Mongoose, PostgreSQL
**Auth & Security:** JWT, bcrypt, cookie-based authentication, Google OAuth
**AI & ML:** Python, TensorFlow, Keras, AI model integration
**Tools & Platforms:** Git, GitHub, VS Code, Postman, Netlify, Render, Vite

## PROJECTS

### PEBLO TV | Full-Stack OTT Streaming Platform

*React.js, TypeScript, Vite, Python, FastAPI, PostgreSQL (Neon), Netlify, Render | Live: peblo-viewer.netlify.app · CMS: peblo-cms.netlify.app · Code: github.com/Aditya-singh-31/peblo-tv-mini*

- Built a responsive OTT viewer with featured shows, categorized sections, search, and category and language filters.
- Developed show detail pages with seasons and episode information, plus a dedicated CMS for managing content.
- Built a REST API with FastAPI and PostgreSQL; deployed the frontend on Netlify and the backend on Render.

### EcoCycle AI | AI-Powered Smart Waste Management

*React.js, JavaScript, Python, TensorFlow, Keras, Flask, Netlify | Live: ecocylce-ai.netlify.app*

- Built an AI scanner that classifies uploaded waste images (JPG, PNG, WEBP) using an image classification model.
- Provided recycling recommendations and disposal guidance for plastic, organic, paper, glass, metal, e-waste and hazardous waste.
- Added an analytics dashboard and responsive interface for sustainability insights.

### EcoCycle | Smart Waste Management System

*Live: minorprojectsirt.netlify.app*

- Developed a waste management platform with an image-upload scanner and disposal guidance.
- Included recycling process visualization, a dashboard, government guidelines and awareness resources.
- Added a case study on the Bhopal landfill bioremediation project.

### Patek Philippe | Luxury Watch E-commerce Website

*Live: patekphillipe.netlify.app*

- Designed a premium watch website with a featured hero section and a collection showcase.
- Built product cards with pricing, brand history, and customer service, warranty, shipping and returns sections.
- Implemented responsive navigation and layout.

### Game Card | Interactive Memory Game

*Live: gamecrd.netlify.app*

- Built a browser-based card-matching memory game with a live score counter.
- Designed a simple, user-friendly interface for testing memory and concentration.
